

# ANNUAL REPORT

**Name of Regional Network: Mersey Clinical Audit Network**

**Regional Network Chair: Michael Spry**

## Successes

- The 4 NW clinical audit network chairs, working collaboratively and supported by HQIP, provided a training event for NW clinical audit staff in November 2015. This was extremely well attended and with excellent feedback.
- Appointment to Deputy Chair role.
- Intense debate provoked by surgeons' regional audit of completion of their own audits

## Lessons Learnt

- Importance of having a forum for members across the region continues to be the key theme. Small, but consistently attended and a good range of debates and speakers help staff feel connected and invigorated.

## Future Direction

- Maintaining a successful programme based around shared learning and enabling staff to feel linked in to the national picture, with a range of speakers and activities
- Continue with annual regional training event aimed at clinical audit staff in practice.
