

ANNUAL REPORT

Name of Regional Network

South Central Clinical Audit Network

Regional Network Chair

Jen Knight

Successes

Training event for network members on action planning, which allowed delegates to access over subscribed training that had been provided by HQIP.

Introduced the AHSN to the network, with the CEO of Oxford AHSN coming to speak.

Lessons Learnt

The network is small, and attendance is low. It doesn't matter where we are physically located for the meeting, we will always struggle to get good attendance – however, we have increasing engagement with questions being circulated to the network, via the chair, and independently.

Future Direction

The network will look to be supported by a national plan for funding and training delivery in quality improvement methodology, which will help sustain and grow network membership and engagement.
